

VENKAT RAMANA MADHAVAN

Application Engineer | +49(176)577-45503 | Munich, Germany
venkatmadhavan95@outlook.com | <https://www.linkedin.com/in/mvr1995/> | [Personal Website](#)

PROFESSIONAL SUMMARY

Target Roles: Product Manager/ Specialist

With six+ years in application and product development, specialized in creation and collaboration of reliable products for vendors with enhanced stakeholder management. Interested in product portfolio with aim to lead cross-functional teams.

WORK EXPERIENCE

Senior Application Engineer

Rohde & Schwarz

September 2020 – present

Munich, Germany

- Development of T&M Applications for Spectrum Analyzer - Engineered real-time radar measurement firmware in C++ and built a React-based web interface, achieving 50%-time savings through optimized code and design reviews
- Led Kubernetes-driven cross-platform integration and DevOps automation, improving efficiency by 30% while delivering customer-focused features and ensuring high-quality releases with product managers
- Mobile Radio Testers - Developed backend firmware for WLAN 11ax measurements with C++ and Web UI using Angular for CMX Mobile Radio Tester and Promoted to Senior Application Engineer after 2 years

Student Software Engineer

e.solutions GmbH — Siemens AG

January 2019 – August 2020

Nuremberg, Germany

- Developed video stream analysis tools using C++11 and CMake, boosting project efficiency by 50%
- Developed and deployed augmented reality cloud applications on AWS, optimizing 3D models and improving accuracy by 20%, enhancing scalability by 25% using Angular with cross-platform integration at Siemens LDA

Senior Associate Consultant

NTT DATA Services

July 2016 – August 2017

Bangalore, India

Developed a banking and investment platform using Java, enhancing transaction processing efficiency by 12%. Contributed to development of secure financial features using Java, SQL, and Python. Debugging applications for bug-fixes

SKILLS

Programming Languages: C++, Node.js, Python, React, Flutter, Typescript

Database & Caching: SQL, MongoDB, Redis

Testing & DevOps: PyTest, Playwright, Google Test, Git, Docker, Jenkins, Kubernetes, CI/CD Pipelines

Cloud & Distributed Systems: AWS S3, EC2, RDS, CloudWatch, Scalable API with REST, gRPC

Tools & OS: MATLAB, Figma, Windows, Linux, Yocto, Ubuntu

AI: Machine Learning, Deep Learning (CNN, NLP Intermediate Level), Generative AI, Prompt Engineering

EDUCATION

Product Management with Generative & Agentic AI, BITS School of Management

Master of Science, Communications and Signal Processing, FAU Erlangen-Nuremberg

2017 - 2020

Bachelor of Technology, Electrical Engineering, JNTU Hyderabad

2012 - 2016

PUBLICATIONS

[IEEE RadarConf'20](#) - Contributed 70% for detection of multiple targets in a radar scene with single stage approach

KEY ACHIEVEMENTS

Cost Optimization Pioneered an DevOps cost cutting project, leading to a 30% improvement in usage and performance

Successful Project Area Transition 80% Active Contribution to migrate project under regulations and boost efficiency

Improved Firmware Quality Increased measurement accuracy by 3% in WLAN 11ax firmware

Interests - Playing Badminton. Product Portfolio, Photography (Landscapes, Art), Travelling (26+ Countries...)

Skills - Polyglot (Kannada, English, German, Hindi, Tamil, Telugu). Written and verbal communication skills to articulate complex technical concepts to clients enhancing project understanding and efficiency
